

## SUMMARY

this invention relates to a improvement to the fold out steps of a recreational vehicle that will help stabiliz and strngthen the fold out steps of a R.V. for entering and exiting the structure

# BRIEF DESCRIPTION OF DRAWINGS

FIG \_ 1 showing step attachment 3 attach to handrailing 4 and support brace 2 attach to 3 and showing ajustment nut & bolt #1

FIG \_ 2 showing top and side view of support brace # 2

FIG - 3 showing step attachment # 3

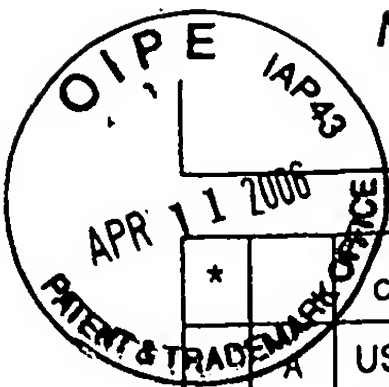

FIG - 4 showing wooden ~~step~~ steps that going over R.V. folding step and holes were thay are attach to folding steps and support brace # 2;

FIG - 5 showing R.V. steps befor step **attachment**

FIG - 6 showing R.V. STEPS AFTER STEP ATTACHMENT ATTACH TO R.V. STEPS AND R.V.

## DETAILED DESCRIPTION

Referring to FIG - 1 the invention is the step attachment -3 and the support brace -2 this is the invention step attachment -3 that is an angle of metal with holes spaced one inch apart and to the degree of the steps that can be used on any R.V. steps support brace -2 is a 12 inch angle that is attached to step attachment -3 that can be adjusted to any R.V. steps by the holes spaced one inch apart the handrailing -4 and the adjustment nut and bolt -1 is an add on that can be purchased at any home building supply store assembled as showing on FIG -1 is mounted to the R.V. a wooden step that goes over the R.V. folding steps and bolted to support brace -2 and R.V. STEP AS SHOWN ON FIG 6

**CANCELLED**

Hansen patent is not showing happening in advance of my invention the step attachment or any of the above listed and other patents. Hansen claim or any of the patent listed above are not showing that they can go to any home building supply store purchase there handrailing and attach it to there invention as Im claiming that a handriling purchased at any home building supply store can be attach to the step attachment therefor the step attachment is not similar to other invention and is an improvement over other patent invention

**BRING REWRITTEN HOPING TO SHOW MY INVENTION THE STEP ATTACHMENT IS STRONG AND MORE STABILIZING FOR THE FOLD OUT STEPS OF A R.V. WHERE HANSEN INVENTION IS (NOT) THE STEP ATTACHMENT MAKING THE FOLD OUT STEPS AN IMPROVEMENT OVER HANSEN INVENTION**

## STEP ATTACHMENT

### SPECIFICATION

In travel trailers - fifth wheels and R.V. and such have steps that fold in when R.V. IS IN MOVEMENT AND FOLD OUT WHEN R.V. is park and being used to enter and exiting the R.V. and such the step attachment that will be assembled over the R.V. folding steps when parked and disassembled when R.V. IS IN MOVEMENT THE STEP ATTACHMENT WILL MAKE THE R.V. folding steps much stronger and by adding a handrailing to the R.V. folding steps the step attachment is an advantage and improvement over the folding steps of the R.V. by makeing the R.V. steps much stronger and by ading a handrailing for safety

## BACKGROUND

A large segment of American owns R.V. these vehicles have side doors located a substantial distance from the ground with retractable stairs one or more that are not too steady the present invention the step attachment that will make the R.V. steps much stronger and safer to enter and exiting the R.V. and by adding a handrailing makes it safer to enter and exit the R.V. for all using the R.V.

**CANCEL**

**BEING REWORDED AND REWRITTEN HOPPING TO  
MAKING THIS PRESENT INVENTION BETTER  
UNDERSTOOD — CLEAR VERSION BEING SENT**

**NO NEW MATTER**

## SUMMARY

A STEP ATTACHMENT that can be attach to any R.V. stairs of travel trailers - fifth wheel trailers and R.V. to enter and exit the vehicles and a handrailing can be added to the step attachmen that will be attach to the recreational vehicle the step attacgm -ent that can be assembled and disassembled at any time

#### BRIEF DESCRIPTION OF DRAWINGS

FIG \_ 1 showing step attachment 3 attach to handrailing 4 and support brace 2 attach to 3 and showing adjustment nut & bolt #1

FIG \_ 2 showing top and side view of support brace # 2

FIG - 3 showing step attachment # 3

FIG - 4 showing wooden ~~step~~ steps that going over R.V. folding step and holes were thay are attach to folding steps and support brace # 2

FIG - 5 showing R.V. steps befor step **attachment**

FIG - 6 showing R.V. STEPS AFTER STEP ATTACHMENT ATTACH TO R.V. STEPS AND R.V.

## DETAILED DESCRIPTION

Referring to FIG - 1 the invention is the step attachment -3 and the support brace -2 this is the invention step attachment -3 that is an angle of metal with holes spaced one inch apart and to the degree of the steps that can be used on any R.V. steps support brace -2 is a 12 inch angle that is attached to step attachment -3 that can be adjusted to any R.V. steps by the holes spaced one inch apart the handrailing -4 and the adjustment nut and bolt -1 is an add on that can be purchased at any home building supply store assembled as showing on FIG -1 is mounted to the R.V. a wooden step that goes over the R.V. folding steps and bolted to support brace -2 and R.V. STEP AS SHOWN ON FIG 6

CLAIM

What is claimed is step attachment 3 an angle of metal with holes spaced one inch apart to the degree of R.V. steps with a 12 inch angle support brace #2 attach to step attachment #3 that can be adjusted to any R.V. steps and such and that a handrailing purchase at any home building supply store that can be attach to the step attachment #3 and the R.V. with wooden steps going over the R.V. steps and attach to support brace #2 and R.V. step and that the step attachment can be assembled and disassembled at any time
